

Using Countries Cities Time zones

After Click Start -> Info for horoscope -> Countries Cities Time zones the following window appears where you will see a marker for your current location (you have to agree to use location services).

Every user has its **OWN** Countries, Cities and Time zones, so by adding or editing something you will only influence your own. It is NOT possible to delete a Country, City or Time zone once it is added to the database. This is due to the fact that persons are linked to birthplaces.

Standard you will have the following.
