

## Year horoscope

The very first time after a click on Start -> Horoscope -> Year horoscope -> Select person for year horoscope an empty “Select person for year horoscope” window will appear as you did not prepare a year event and did not add this event to a person.

So click Start -> Info for horoscope -> event for horoscope

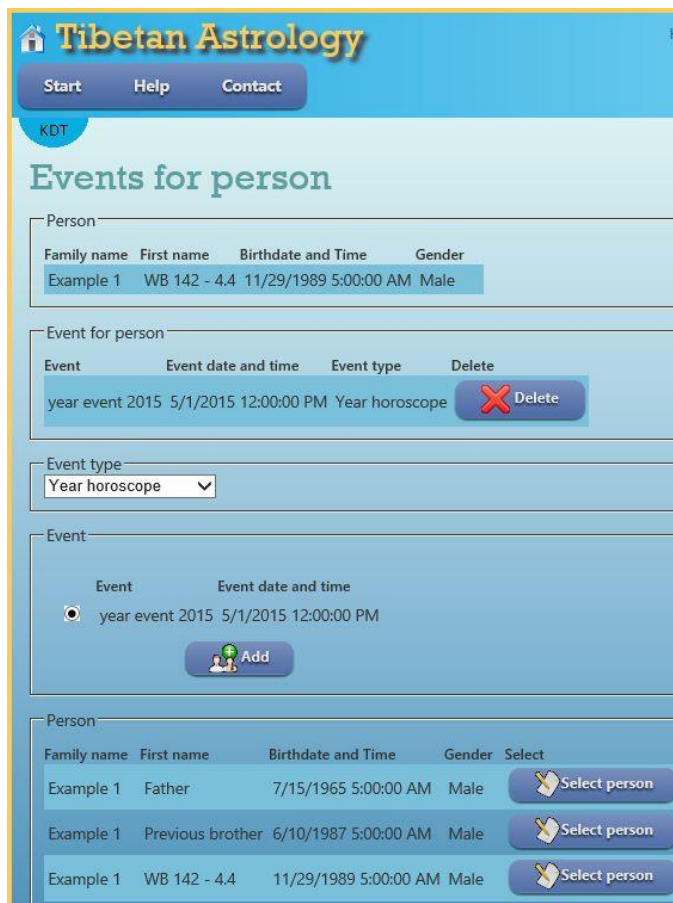

And you will see

Create an event by clicking the button

Give the event a meaningful name and in case it will be used for a Year horoscope event be sure that the date entered will give the desired year ( e.g. the date 20150110 entered will show the Tibetan year 2014 ) and that the date entered will match the tradition you like.

Now add the event using “Events for person” with event type ‘Year horoscope’ and the selected event. E.g. select Example 1 WB 142 – 4.4 will give

After all these additions clicking Start -> Horoscope -> Year horoscope -> Select person for year horoscope you will see

Click on a person to select and the general window will open and you will have the horoscope select button with the choices
